

WIO Smart Motor | Open Ended

Choose a sensor and use what you have learned about the WIO Smart Motor to tell a story.

Think Like an Engineer:

How can you decide which sensor is best to use for your story?

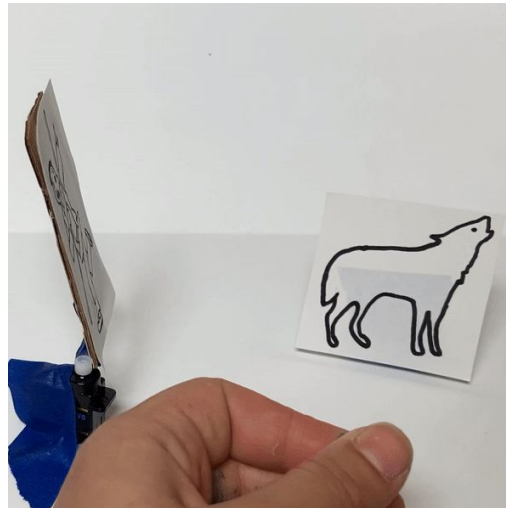

Think Like a Writer:

Can you tell a story about your life or animate a book you like?

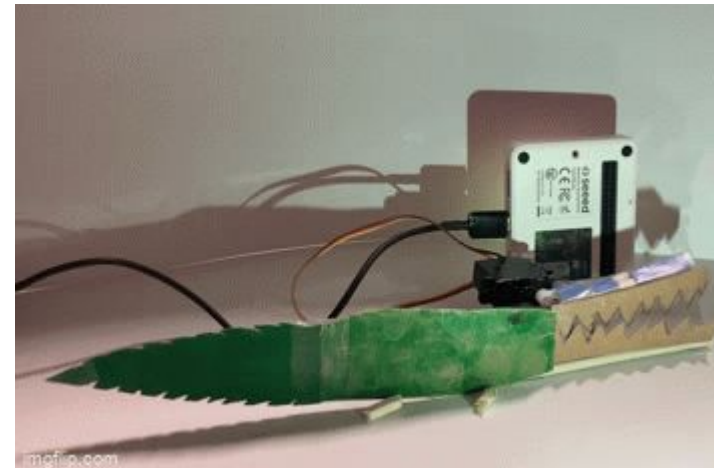

EXAMPLE IDEAS

King Midas

The Boy Who Cried Wolf

The story of a very hungry alligator

Flip over for more details!

WIO Smart Motor | Open Ended

Choose a sensor and use what you have learned about the WIO Smart Motor to tell a story.

Think Like an Engineer:

How can you decide which sensor is best to use for your story?

Think Like a Writer:

Can you tell a story about your life, make up a story, or animate a book you like?

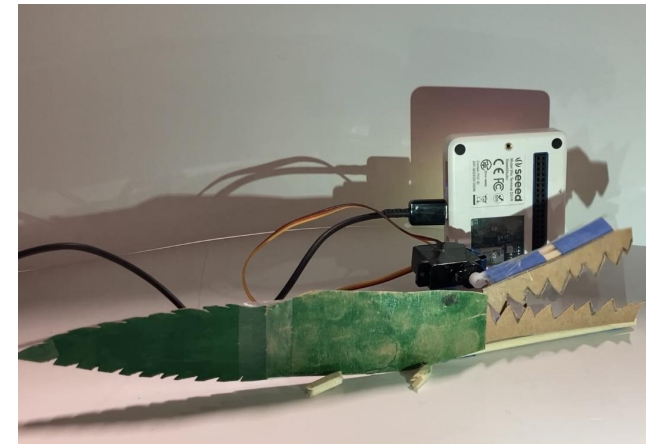

EXAMPLE IDEAS

King Midas

The Boy Who Cried Wolf

The story of a very hungry alligator

BUILD IT!

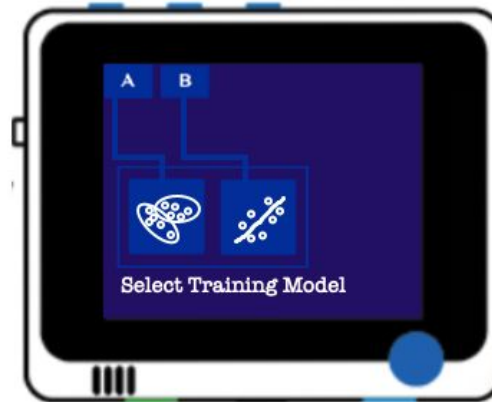

Use the different materials to build with your Smart Motor.
How could you use recycled materials in what you build?

VISUALIZING DATA

In running mode,
press button for

Change the way your data is modelled:

– Clustering

– Linear regression

CHALLENGE YOURSELF

What other ways could you use the Smart Motor to build something you haven't yet made?
