Animate an Animal!

Choose a sensor to use with your SPIKE Prime Smart Motor to make your favorite animal move!
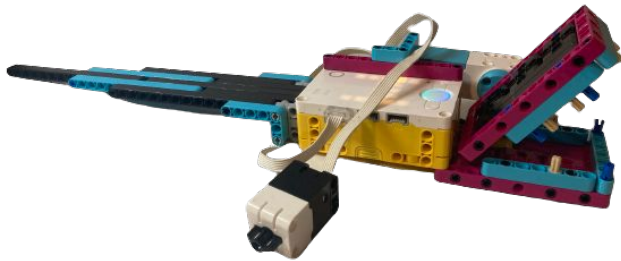

Think Like an Engineer:
What are different ways you can use a motor to make something move?

Think Like a Scientist:
How does the way an animal move reflect how it lives?
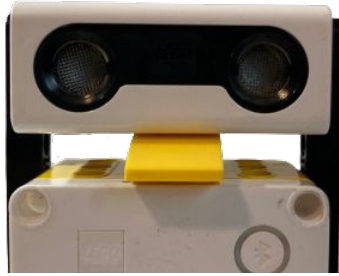

EXAMPLE IDEAS

Hungry alligator

Dog wagging its tail

Penguin waving its arms
Flip over for more details!

BUILD IT

How can you incorporate the sensor into your design?

TRAIN IT
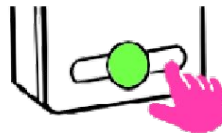

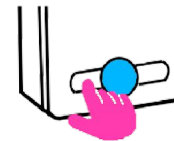

🟢 **Training Mode** → 🔵 **Running Mode**

**move** the motor → **set** the sensor → **press** the *right* hub button

press the *left* hub button to enter running mode

turn hub **on and off** to restart training

CHALLENGE YOURSELF

Partner up with someone and try to make your animals interact.
